

My Community Challenge B1

I can do things for the community where I live.

Entrepreneurial Civic Education

Improving the Quality of Life

How can you measure the quality of life? And what do terms like gross domestic product or the Gini coefficient have to do with it? Specific tasks in the different training units will help the students answer these questions. Finally, they will develop their own indicator to measure quality of life and discuss, question and debate various aspects of wealth in our society.

Games

Materials for Station 1: Play the GDP-Memory

Sales	Intermediate consumption	Taxes
Export	Import	Subsidies
Private consumption	Government spending	Investment
Corporate and investment income	Compensation to employees	

My Community Challenge B1

Youth Start Entrepreneurial Challenges

€ 6 million worth of bread	Flour for a bakery	Securities turnover, levy on capital, excise duty on tobacco, beverages, ...
Auto parts to Germany, railway tracks to Slovenia, ...	Gas from Russia, fish from Norway, ...	EU funds, payments of the Federal Government to the OEBB, ...
TV, mobile phone, sausage roll, toilet paper, ...	Education, health, culture, infrastructure, ...	Real estate, machinery, equipment, ...
Profits and interests	2,000€ wages	

Materials for Station 5: Play a game of Country Trumps

Austria
